

Latin America & Caribbean

The Latin America and Caribbean Network Information Centre (LACNIC, Spanish: Registro de Direcciones de Internet para América Latina y Caribe, Portuguese: Registro de Endereçamento da Internet para América Latina e Caribe) is the Regional Internet Registry for the Latin American and Caribbean regions. LACNIC provides number resource allocation and registration services that support the global operation of the Internet. It is a not-for-profit, membership-based organisation whose members include Internet Service Providers, and similar organisations. LACNIC has been allocated the IPv4 address blocks 177.0.0.0/8, 179.0.0.0/8, 181.0.0.0/8, 186.0.0.0/8, 187.0.0.0/8, 189.0.0.0/8, 190.0.0.0/8, 191.0.0.0/8, 200.0.0.0/8, and 201.0.0.0/8 and IPv6 blocks 2001:1200::/23 and 2800:0000::/12. On 10 June 2014, LACNIC announced that IPv4 addresses pool can be considered exhausted in its service region, single /10 block had remained for distribution.
